## DAY OF WINNING

Автор Анна Полежаева

Day of Winning like an ember in the fire  
Seemed so distant but remained our hearts' desire.  
Miles behind us, passed the fatal way we stood.  
Bringing Victory as closer as we could.

That's the Day of Winning, ringing through the skies  
That's our glory, our memory for life  
That's the gladness, but with sadness in our eyes  
Day of Winning! Day of Winning! Day of Winning!

Days and nights working hardly sight by sight  
On the home front leaving tiredness beside  
Days and nights without rest for common good  
Bringing victory as closer as we could

That's the Day of Winning, ringing through the skies  
That's our glory, our memory for life  
That's the gladness, but with sadness in our eyes  
Day of Winning! Day of Winning! Day of Winning!

Dear mother, I have made it back to you...  
All I wish to run across the morning dew.  
Cross the borders, many souls left us for peace  
Bringing Victory and glory to exist

That's the Day of Winning, ringing through the skies  
That's our glory, our memory for life  
That's the gladness, but with sadness in our eyes  
Day of Winning! Day of Winning! Day of Winning!

That's the Day of Winning, ringing through the skies  
That's our glory, our memory for life  
That's the gladness, but with sadness in our eyes  
Day of Winning! Day of Winning! Day of Winning!
